

March 25, 2020

Hello Lakeside Families:

As I'm sure most of you are aware, Governor Little has issued an immediate Stay-at-Home order for the next 21 days. The State Board of Education has closed all schools until at least April 20. At Lakeside, our staff has been working on how to continue to deliver instruction remotely beginning April 6. We miss your kids and wish they could be back in school with us but unfortunately, that is not the case right now.

**Parent/Teacher Conferences** - Some have already been completed but other have been postponed until further notice.

**Drop and Go Meals** will continue beginning April 6. With some flexibility given from the federal government, we will now be able to work with Tribal School so as not to duplicate our efforts. Details on that will come next week.

**Academics** – Our staff have been busy planning for instruction to students beginning April 6. More information will come to parents and students in the near future.

**Health and Safety** – please take all precautions possible and keep yourself and your family safe. We look forward to seeing all of your children (hopefully) soon.
